JUNE IS FELLOWSHIP MONTH

contributed by Christine O'Connor

This month is Rotary Fellowships month. Rotary was founded on fellowship, a concept that has been expanded internationally through the Rotary Fellowships groups that bring together members from different countries and cultures to enjoy a shared interest. From chess to cyclists, from Egyptology to flying, from golf to yachting, from singles to magic, there are nearly one hundred Rotary Fellowships, all of which serve as a way to extend international fellowship, friendship, and service. In addition to offering members an opportunity to share their passion for a particular interest with like-minded Rotarians, the fellowship groups enable members to use their hobbies or skills to serve others. Membership is open to Rotarians and, in some fellowships, to spouses and Rotaractors as well. For further information go to: www.rotaryfellowships.org

Fellowship project hits all the right notes

Rotary International News - 4 June 2008

Children at St. Andrew's Roman Catholic School in Grenville play with recorders donated by a member of the International Fellowship of Rotarian Musicians.

Music is an integral part of Grenada's culture, and children in Grenada start learning to play instruments at a young age. But when back-to-back hurricanes hit the Caribbean island nation in 2004 and 2005, an unfamiliar silence fell over devastated schools. The International Fellowship of Rotarian Musicians is bringing the music back. In its debut humanitarian project, it donated US\$2,500 to help rebuild the music program at St. Andrew's Roman Catholic School in Grenville. The school, which serves 500 students ages 5-15, lost all its musical instruments and books in the storms. "Music inspires us all. It unites our children and enhances their feelings of self-worth and achievement," says Sister Lucy Gabriel, the school's director. The money helped purchase guitars, violins, music stands, and a partial set of steel pans, an important instrument in Caribbean music.

Fellowship member Peter Sotheran, of the Rotary Club of Guisborough & Great Ayton, Cleveland, England, presented the funds to the school in a ceremony last year. He also delivered an additional \$3,000 and 36 second-hand recorders (wind instruments valued at about \$28 each) that his club had collected from donors in England.

"Before I had finished unpacking, the children were experimenting to see what sounds they could produce," says Sotheran, whose club worked with the Rotary Club of Grenada East to rebuild the school's library.

The International Fellowship of Rotarian Musicians was founded in 1972. Its 400 members organize musical performances at Rotary functions, including RI conventions. As part of its mission to promote
